

Please DO NOT implement any proposal that would lessen our Indiana Telephone Privacy LAW Protection..

This has been a wonderful thing. Since signing up for this we only receive wanted calls. No Sunday calling from someone trying to sell things. It was just getting out of hand. I tell people in other states about our wonderful law..they said they wished they had it.

My son has Hodgkins Lymphoma and my Father just passed away Monday from Lung cancer..it would have been terrible to come in to our answering machine and get messages from unsolicited groups..( which are very annoying.)to say the least.

We the PEOPLE OF INDIANA have the right to have our LAW KEEP IN EFFECT>>maybe someone in the FCC has there hand in the till. I can't believe this..WE DEMAND OUR INDIANA TELEPHONE PRIVACY LAW PROTECTION RIGHT.

William Howard Busse..
